A Lakewood's **Welcome Center** is the first stop for many of the thousands of people who visit Lakewood each year. This net-zero energy ready building features accessible family meeting rooms, a gallery for viewing art, and a dedicated space for community gatherings.

B Don't miss the centerpiece of the cemetery, the **Memorial Chapel**, modeled after the Hagia Sofia and completed in 1910. Many experts believe that a work of such magnitude—with its mosaiced interior composed of 10 million colorful tiles—could not be recreated at any price today, as artisans possessing the necessary skills have passed into history.

C Tie a ribbon to the **Living Memory Tree**, a creative, collective way to honor the memory of loved ones.

D Completed in 2012, Lakewood's **Garden Mausoleum** is a masterpiece of contemporary architecture and an exquisite work of art. It was designed by HGA Architects to instill a sense of peace and calm in an environment conducive to contemplation and healing.

E Completed in 1967, the **Memorial Mausoleum** is designed by Detroit architects Harley, Ellington, Cowan & Stirton using a blend of enduring Minnesota granite, bronze and steel.

After visiting architecture near Lakewood's gates, experience the stunning **arboretum** around you.
